Education

B.S. in **Computer Science** at Palestine Polytechnic University.
Achieved honor list for 3 out of 6 semesters.

Sep, 2021 – Jun, 2025 (Expected)

Experience

Noon | Dubai, UAE (Remote)

Jun, 2024 – Sep, 2024 (Expected)

Backend Intern

- Working at a leading E-Commerce company in the Middle East on an internal tool that deals with thousands of products which requires providing efficient solutions.
- Maintaining APIs and integrating with multiple services and different databases.
- Helped optimize a solution by significantly reducing the number of expensive queries.

Foothill Technology Solutions | Nablus, Palestine (Remote)

Jul, 2023 – Jan, 2024

Backend Intern

- An intensive internship with topics related to backend development applied in tasks that are reviewed by experienced developers to provide me with feedback and best practices.
- Included deep dive into C#, unit testing, clean coding and design principles, databases, system design, ASP.Net backend framework, and software architectures.

Skills

- **Programming languages:** C#, Python, C++, HTML, CSS, JavaScript.
- **Backend frameworks:** ASP.Net, FastAPI, Django.
- **Database systems:** SQL Server, MySQL, BigQuery, MongoDB.
- **Tools:** Git, GitHub, Docker.
- Knowledge of system design concepts and tradeoffs.
- Software testing and security.
- Problem-solving and competitive programming.
- Strong written and spoken English.

Projects

- [Hotel Booking System](#): RESTful API application using ASP.NET for exploring cities, hotels, and rooms to book hotels. It applies clean coding principles and Clean Architecture for its great separation of concerns and maintainability by isolating business logic from external dependencies.

Competitions, Exercises, and Volunteer Experience

- Participated in PCPC, Hebron Code Jam, and NPalestine which are national Competitive Programming contests that enhanced my teamwork skills, effective time management, and solving complex problems under pressure.
- Continuously solving programming problems. Solved over 600 problems on various topics at difficulty levels on Codeforces. [Codeforces Profile](#)
- Serving as a competitive programming coach for the Code Club at my university using C++, which helped over 20 students get started with their journey in problem-solving. Also, this is improving my communication, explanation, and presentation skills.
